MINI QUIZ

WHAT'S YOUR GO-TO KISSING MOVE?

Your lips speak volumes to him. Find out what they're saying.

THE MOVE:

soft & sweet

WHAT HE THINKS: SHE REALLY LIKES ME!

The amount of control says the kiss is intentional—he's not just a random hookup. And holding back on tongue gives a delicious prelude to what might happen next.

THE MOVE:

cheek peck

WHAT HE THINKS: SHE'S COMMITTED.

You don't think twice about kissing his cheek in public (like when you meet up at the movies) because there's nothing racy about it—just genuine warmth and affection.

THE MOVE:

lots of tongue

WHAT HE THINKS: SHE'S CLUELESS.

Messy, over-the-top tongue makes you seem inexperienced. To keep it hot, ease into it: Use your tongue to caress his lips, then just inside his mouth, then slowly go all the way in.

THE MOVE:

biting his lip

WHAT HE THINKS: SHE WANTS TO GO FURTHER.

This advanced move says you know what you're doing—and that you're really into the hookup. Don't go there with a guy you're lukewarm about or he'll get the wrong idea.

17 EXPERT: Andréa Demirjian, kissing expert and the author of *Kissing* (Penguin Group, 2006).

3 HIS MOVE: FINGER LACE

- A** He's gripping your hand because he's insecure that you might leave him.
- B** He's gripping your hand because he's in loooove.

1 ANSWER: A
A guy who looks at you like this is lovestruck! Other clues? If he touches your knee or crosses his legs toward you, like Paul.

2 ANSWER: B
Holding you in a vulnerable spot in public is sketchy—like he's trying to get the upper hand. Are Ashley and Joe headed for trouble?

3 ANSWER: B
Intertwined fingers and a tight grip are a sure sign of a super-close connection. These two couldn't be more in sync—Bieber is smitten!
